

SPRING NATURE PROGRAMS AT RITTER FARM PARK

RITTER FARM PARK, 19300 RITTER TRAIL, ED MAKO ENVIRONMENTAL LEARNING CENTER (ELC)

Spring Ephemerals

Instructor: Ron Osterbauer

Osterbauer

A four week introduction into spring wildflowers. This course will teach participants the skills to identify wildflowers in bloom as well as provide an instruction to the use of the Peterson Guide to Wildflowers. Learn the techniques to identify seasonal wildflowers by color.

Adults 16+ \$99 (Includes Field Guide \$25 retail)

April 29-May 20 Sat.
11 a.m.-1 p.m. 443208-01

Edible Plants

Instructor: Ron Osterbauer

A two week introduction into edible wild plants. Course will teach participant skills to identify plants and learn of their past uses through the Peterson Guide to Edible Plants.

Adults 16+ \$50 (Includes Field Guide \$25 retail)

May 27 and June 3 Sat.
11 a.m.-1 p.m. 443210-01

Spring Migrants

Instructor: Ron Osterbauer

Which spring birds will you find in Ritter Farm Park? Learn field techniques to identify birds in this two week introduction. Participants will receive a Peterson Field Guide to Birds of Eastern and Central North America as well as an introduction to use of the field guide for future reference. Experience the spring warbler and waterfowl migration with this course.

Adults 16+ \$75 (Includes Field Guide \$25 retail)

May 13 & 20 Sat.
7-9 a.m. 443209-01

Ron Osterbauer is a seasoned naturalist who has taught in the outdoors for several years at several nature centers. He also served as an adjunct professor for Metropolitan State University for over 20 years teaching Minnesota Wildflowers. His favorite wildflower is Bloodroot and favorite bird is the Great-horned Owl.
