NEW RESIDENTIAL CONSTRUCTION SWPPP VERIFICATION

**This form must be completed and submitted with all new residential permit applications.
New residential building permits WILL NOT be issued without this completed form.**

Company Name: _____

Project Site Address: _____

Description of Land Disturbing Activity: _____

NPDES Construction Stormwater Permit # C000 _____ or # SUB00 _____

If you are not covered under a NPDES Construction Stormwater Permit administered by the MPCA, an erosion and sediment control plan MUST be submitted with the residential building permit application.

“The permittee(s) shall ensure that the individuals are trained by local, state, federal agencies, professional organizations or other entities in erosion prevention, sediment control, permanent Stormwater management and the Minnesota NPDES/SDS Construction Stormwater Permit.” (NPDES Construction Stormwater Permit, MPCA)

“The permittee(s) must ensure that a trained person (as identified in Part III.A.3.a) will routinely inspect the entire construction site at least once every seven (7) days during active construction and within 24 hours after a rainfall event greater than 0.5 inches in 24 hours.” (NPDES Construction Stormwater Permit, MPCA)

Contact information of person CERTIFIED to provide weekly onsite erosion and sediment control inspections and corrective actions:

Name of Person: _____ Company: _____

Phone # (24 hr Contact): _____ Email: _____

Entity that Provided Training: _____ Certification Expiration Date: _____

**NOTE: Prior to any land-disturbing activity, all erosion and sediment controls must be installed on the project site and on individual lots.
No land disturbing activity may begin until a residential building permit has been issued.**

I understand, the above information to be true and I will have read, understood, and accepted all terms and conditions of the National Pollutant Discharge Elimination System (NPDES) Permit (MN R 100001). The City of Lakeville may issue a STOP WORK ORDER; withhold building inspections; or, draw on securities/escrows to bring the site into compliance with the NPDES Construction Stormwater Permit (MN R 100001) or erosion and sediment control plan.
