

What is Happening on County Road 9 and 179th Street?

Dakota County and the City of Lakeville have partnered to coordinate planning efforts and identify improvements for two roadway segments in the City of Lakeville: County Road 9 (Dodd Boulevard) and 179th Street. Current County Road 9 will be renamed to Dodd Boulevard and will become a city street managed by the City of Lakeville from east of Highview Avenue to County Road 31 (Pilot Knob Road). Additionally, the current city street 179th Street will be transferred to the County's authority. 179th Street will be renamed to County Road 9 converting it to a county highway from County Road 23 (Cedar Avenue) to County Road 31 (Pilot Knob Road). See map on back.

What's the status of the Corridor Study?

The study team (SRF Consulting Group) has been working with the partners (Dakota County and City of Lakeville) to develop corridor concept alternatives for County Road 9 (Dodd Boulevard) and 179th Street. In doing so, the project team has worked through various iterations that they would like to share with the public and adjacent property owners.

Please Join Us for a Community Open House on Thursday, August 1st from

4:00–5:30 p.m. The meeting will be held at the Lakeville Central Maintenance facility, located at 7570 179th Street. An updated study schedule is available too that reflects the status of the study: <https://cr9-179thstudy.com/>. If you cannot attend the open house on August 1st, please visit the website to stay connected and learn more about what was presented that evening.
